

SENECA CONFIDENCE NETWORK VIDEO RECORDER

Small Business Level Video Storage Appliance

The Seneca Confidence series network video recorder is the go-to small appliance for single site and small camera count installations. This appliance combines simplicity and performance to provide a robust, ready to use solution in a mid tower or 1U rack server.

Tuned and optimized by the Arrow Advanced Engineering Team, the Seneca Confidence platform offers seamless installation with video management software (VMS) platforms as well as leading camera manufacturers. Confidence, peace of mind and performance don't always have to come with a big price tag.

All Seneca NVR servers come with Seneca xConnect pre-installed. Seneca xConnect is an industry-best hardware monitoring tool designed to monitor, report and manage the environment and performance of your server hardware.

KEY FEATURES

- 3 Year Global next day on-site service
- Industry leading xConnect hardware monitoring ensures maximum up time
- Tested, Validated and Certified with top VMS applications
- Up to 16TB of raw storage retention
- Performance tunings optimized for specific VMS
