

## XVIEW MINI

### Client Viewing in a Small Footprint

The xVault Mini is a client viewing solution designed specifically for surveillance projects that require exceptional viewing on a single monitor. Built in an ultra-small form factor the xVault Mini is able to be mounted in confined spaces including behind a monitor, under a desk, or in the reception area. Upholding the performance of the xVault brand, the xVault Mini can support up to 8 camera streams.

All of xVault client viewing stations are built for the surveillance market. Understanding the high demands of a viewing solution, the xVault Mini has been thoroughly tested with leading video management software (VMS) platforms. Optimized for each VMS and the surveillance market, integrators can rest assured the xVault Mini will have exceptional performance for single monitor viewing.

### KEY FEATURES

- Single monitor viewing solution streaming up to 8 camera views
- Excellent value and price point for small viewing solutions
- Ultra small form factor for compact spaces
- Ideal for remote monitoring such as retail stores, apartment complexes, and small office buildings

Exceptional performance in an ultra-small form factor
