

HD^N EMBEDDED SYSTEM

Industrial Intel® NUC with HDMI Capture and Passthrough

The Seneca HDN, powered by the 8th generation Intel® Core™ i7 processor, wraps the power of the Intel® NUC platform in a hardened chassis design for enterprise level use. The revolutionary design guarantees thermal efficiency in harsh environments while maintaining a sleek aesthetic for the office. Also new to this latest generation HDN is the capability to capture and display full-HD content with an integrated HDMI capture and passthrough card. This new feature allows external content into your campaigns making your digital signage engaging for all its onlookers.

KEY FEATURES

- HDMI capture and passthrough card
- Capable of supporting 4K content
- Ideal for Retail solutions such as QSR menu boards and intelligent kiosks
- HD video capable with up to two independent displays
- Internal power supply for easy mounting and cabling
- Reliable performance with enhanced thermal efficiencies
- Ventilation on front and sides to direct air over essential components
- Designed to allow the system to be mounted against a wall without hindering air flow

The HD^N enhances our lineup, creating a powerful ultra small form factor media player with Intel® NUC performance and HDMI capture and passthrough.
