

SENECA HD^S MEDIA PLAYER

Small and Simple yet Rugged and Powerful.

The Seneca HD^S Media Player is a ruggedized fanless single output media player and embedded system designed to perform in the most demanding environments. With our purposeful design and feature sets, the Seneca HD^S proves that big things really can come in small packages.

The Seneca HD^S provides a simple installation through a custom VESA/wall mount plate. A simple installation is achieved through a steady data stream via integrated gigabit Ethernet, onboard HDMI and VGA ports providing smooth HD video playback and validation with leading ISV platforms for a true plug and play experience. With a custom BIOS and Tuned OS to guarantee mission critical performance, there leaves little to be desired from this small, yet mighty system. With great performance and reliability the Seneca HD^S Media Player makes digital signage easy.
