

SENECA HD^S MEDIA STICK

Professional digital signage available in a media stick

The Seneca HD^S Media Stick is a ruggedized fanless single output media player engineered to deliver 1080p^{60fps} playback in the most demanding environments. With our purposeful design and feature sets, the Seneca HD^S Media Player negates the known challenges of using a compute stick in the visual media market.

The Seneca HD^S provides secure connectivity to the display with a cradle mount, Kensington lock and a secure data stream provided by the integrated Ethernet port. The Seneca HD^S has been validated with the leading ISV platforms for a guaranteed plug and play integration. This solutions also offers full operating system functionality and supports full Windows and Linux operating systems.

With the Seneca HD^S Media Player great performance and reliability now come in a small package.

KEY FEATURES

- Intel® Atom™ Processor
- Operating system options: Windows 10, Window 10 IOT, Windows 8.1 and Ubuntu 14.04
- Fanless design for proper thermal dissipation
- Long-life performance for 24/7 usage in demanding environments
- Secure connectivity and fast ethernet port for a stable data stream
- HDMI interface with full 1080p at 60fps Playback

- 7.5X smaller than comparable single output players
- Fanless and ruggedized
- Integrated Ethernet port
- Plug and play integration
