

## SENECA COMPUTE STICK

Featuring the Intel® Atom™ Processor

The Seneca Compute Stick, by Intel®, is a tiny device that can transform any HDMI TV or display into an entry-level computer. But it's what's inside making it really incredible: a quad-core Intel® Atom™ x5 processor that gives you balanced performance for work or play. Set up is just plugging the Stick into any HDMI TV or monitor, connecting your wireless keyboard and mouse and you're ready to work, it's that simple.

With a brand-new design, this pint-sized powerhouse delivers full-size performance, reliability, and ease of use that lets you work and play when and how you want. It's ready to go out-of-the-box, so you're ready to take your media, games, files, and power applications with you wherever you go.

### KEY FEATURES

- Intel® Atom™ Processor
- Ready to go straight out-of-the box
- Connectivity is quick, reliable and seamless
- Bundled with HDMI extender cable and power adapter
- Ideal for healthcare, education, thin client and entertainment uses

---

Everything you love about  
computing in a device that fits in  
the palm of your hand
