

## SENECA COMPUTE STICK

Featuring the Intel® Core™ M Processor

The Seneca Compute Stick, by intel®, is a tiny device that can transform any HDMI TV or display into a complete computer. Featuring the Intel® Core™ M processor or the Intel® Core™ M vPro™ processor, the Stick delivers performance you need to create brilliant graphics and videos to analytic models on spreadsheets or presentations. Designed and optimized to take advantage of the Intel® Core™ M processor, the Stick is suited for home, business and PC-like embedded applications.

The Seneca Compute Stick has the quality and value you've come to expect with full-size performance, reliability but with the ease of use in a tiny computer. The Seneca Compute Stick helps you work better and now wherever your day takes you.

---

Everything you love about  
computing in a device that fits in  
the palm of your hand
