

XVIEW CORPORATE

Large Installation Solution

Designed to deliver exceptional performance, the Seneca xView Corporate client viewing appliance is equipped with the Intel® Xeon® W-2100 Series Processor. With the ability to drive up to 8 monitors, the xView Corporate is ideal for larger installation environments. The xView Corporate appliance is ideal for larger surveillance monitoring solution that requires a higher range of monitors and larger camera counts.

All of the Seneca client viewing stations are built for the surveillance market. Understanding the high demands of a viewing solution, the xView Corporate has been thoroughly tested with leading video management software (VMS) platforms. Optimized for each VMS and the surveillance market, integrators can rest ensured the xView Corporate will have exceptional performance for multiple monitor viewing such as control rooms.

KEY FEATURES

- Ability to handle up to 8 monitors for larger viewing solutions
- Intel® Xeon® W-2100 Series Processor for exceptional performance
- Windows 10 IOT designed for building smart things and optimized to power intelligent edge devices
- GPU Accelerated Decode displays more high-resolution streams from a single workstation, as well as enhancing video playback performance
- Performance tunings optimized for specific VMS
- Test, validated and certified with top VMS applications
- Ideal for larger surveillance solutions that require control room monitoring

{ *Exceptional performance for
multiple monitor viewing.* }
