

XVIEW CORPORATE

Large Installation Solution

Designed to deliver exceptional performance, the Seneca xView Corporate client viewing appliance is equipped with the Intel® Core™ X-Series Processor. With the ability to drive up to 12 monitors, the xView Corporate is ideal for larger installation environments. The xView Corporate appliance is ideal for larger surveillance monitoring solution that requires a higher range of monitors and larger camera counts.

All of the Seneca client viewing stations are built for the surveillance market. Understanding the high demands of a viewing solution, the xView Corporate has been thoroughly tested with leading video management software (VMS) platforms. Optimized for each VMS and the surveillance market, integrators can rest assured the xView Corporate will have exceptional performance for multiple monitor viewing such as control rooms.

KEY FEATURES

- Ability to handle up to 12 monitors for larger viewing solutions
 - » Up to 8 monitor support with 2U rackmount form factor
 - » Up to 12 monitor support with the Tower and 4U rackmount options
- Intel® Core™ X-Series Processor for exceptional performance
- Ideal for larger surveillance solutions that require control room monitoring

Exceptional performance for multiple monitor viewing
